ROCOCO' GRASSELLO DI CALCE

glossy

Technical and Environmental Data Sheet

aspect:

colours:

packaging: on the surface:

over painting:

below the surface:

NAME:
TYPE:
USE:

ROCOCO' GRASSELLO DI CALCE mineral mural coating a finishing coating with high degree of transpiration for interior, also those of historical and artistic importance 1.518 ± 30 gr/lt at 25° C specific weight: viscosity: = = = 2-3 m²/LT. 2 coatings on smooth surface (it may vary yield: depending on roughness, porosity, absorption surface and application method)

DRYING TIME:

TECHNICAL DATA:

CHARACTERISTICS AND **RESISTANCE: ENVIROMENTAL PERFORMANCES:**

Once the product has hardened completely, a breathable film develops, offering good resistance to knocks and normal abrasion

see Rococo' catalogue

FORMALDEHYDE ISSUE RATE , X	JIS A 1902-3	X< 0.005 mg/m ² h F****	FORMALDEIDE FORMALDEIDE FREE * * *
VOC On product to use	Directive 2004-42-CE	max 5,7 g/L (Ue Limit 200 g/L) A/l Cat.	VOC

PREPARATION OF THE SURFACE:

New Surfaces: use a suitable filler to repair the surface where necessary. When dry, sand the surface and apply a coat of PRIMER 1200 diluted to 15 - 20% with water. After approximately 4 hours at 20°C, proceed with the application of ROCOCO' GRASSELLO DI CALCE.

Old Surfaces: remove old badly-adhering or peeling paint and wash using a suitable soap product. Next, apply a coat of PRIMER 1200 diluted 50% with water to act as a fixative. After approximately 4 hours at 20°C, apply a second coat of PRIMER 1200 diluted 20 - 30% with water. However, if the surfaces are clean and not peeling, apply a single coat of PRIMER 1200 diluted 20 -30% with water.

After 4 hours at 20°C, proceed with the application ROCOCO' GRASSELLO DI CALCE. **PREPARATION OF THE** thinning: ready for use **PRODUCT: APPLICATION:** system stainless steel trowel coats: 2 **APPLICATION CYCLE** Apply ROCOCO' GRASSELLO DI CALCE with a PV 43, PV 44 or PV 45 stainless steel trowel, leaving a layer roughly 1 mm thick on the surface and creating a smooth, compact surface. After about 6 hours at 20°C, sand well before applying ROCOCO' GRASSELLO DI CALCE with irregular strokes 6 - 10 cm long and spaced 4 - 6 cm apart, over the entire surface to be covered. After roughly 1 hour at 20°C, start again from the beginning of the surface decorated with the first coat, applying strokes as described above, but covering the surface so that each stroke partly overlaps those applied previously. The end result is the Semi-transparent Antique effect PROTECTION AND POLISHING: Rococo 'Grassello di Calce becomes semi-washable after 15 days from application. To give greater washability, apply one or two coats of Cera Lucidante 370 (solvent-based) or Cera Lucidante 420 to water. When the wax is dry, after about 3 - 4 hours at $20 \degree C$, the support still remains opaque. To make it glossy, pass a Wool Cloth with rotary movements and exerting pressure on the support, until obtaining the desired lucidity N.B.: before proceeding with the application, please watch the video tutorial carefully. Application temperature: between $+10^{\circ}$ C and $+30^{\circ}$ C. Storage: make sure that the tin is tightly closed, even after use, and store at a temperature between $+10^{\circ}$ C and $+30^{\circ}$ C. **Stability:** approximately 2 years in properly sealed containers that are never opened

NOTE:

Mix well before use ,Wash the tools with water, immediately after using, with water and soap.
