## **VALPAINT I-BETON PLUS**

## ITEM SPECIFICATION

Supply and application of the HACCP-certified VALPAINT I-BETON PLUS decorative system for interiors, for the purpose of covering horizontal and vertical surfaces and all damp environments, including surfaces which come into contact with water (bathrooms, showers, kitchens, wet areas of wellness centres).

The VALPAINT I-BETON PLUS cycle delivers a "continuous surface" with excellent mechanical properties and contemporary aesthetics, in different shades, with a matt or glossy finish. The cycle can be applied to cement surfaces, directly onto existing tiled surfaces or onto the surfaces inside shower cabinets, both horizontally and vertically.

Application of the VALPAINT I-BETON PLUS cycle entails a series of steps that go from the preparation of the surface to the final result; therefore, it is essential to check the Technical Sheet. The entire cycle must be carried out in accordance with the rules for application, including the materials, the application itself, and all the provisional works necessary for the job.
