VALPAINT I-BETON

SPECIFICATIONS

Supply and application of the HACCP-certified VALPAINT I-BETON decorative system for interiors, formulated for coating horizontal and vertical surfaces and all damp environments, including surfaces in contact with water (bathrooms, showers, kitchens, damp zones of wellness centres, Turkish baths and all food processing environments).

The VALPAINT I-BETON cycle allows for obtaining a "continuous surface" boasting excellent mechanical performances and contemporary aesthetic features, in various nuances, with glossy and matt finish. The cycle can be applied on cement surfaces but also directly on existing decorative tiles, both vertically and horizontally.

The application of VALPAINT I-BETON entails a sequence of steps ranging from the preparation of the support to the final surface, therefore the Technical Data Sheet must be consulted.

The entire cycle must be completed by observing the application rules, including those relevant to materials, the actual application and all preparatory work required.

Cost per m² €
