

VALRENNA 2

SPECIFICATIONS

Supply and application of the water-based decorative paint for interiors, characterised by a tactile delicacy that evokes the softness of suede or buckskin (VALRENNA 2).

Before applying the product, check the support on which the decorative paint will be applied, clean it and remove any deteriorated loose parts in case of old supports, according to the technical sheet.

For new supports, follow the instructions according to the product's technical sheet.

Application of an adequate fixative such as PRIMER 400 by VALPAIN, matching with the desired finish, in order to obtain the colours shown in the catalogue.

Apply VALRENNA 2 using a brush with criss-cross strokes in all directions, as explained more in detail in the technical sheet.

All the above operations must be performed in accordance with the application standards, including the material, application and all preparatory work required.
