SETAVEL

SPECIFICATIONS

Supply and application of SETAVEL, a water-based decorative paint for interiors characterized by a matt finish with a soft-to-touch silky effect. It aesthetically presents a refined texture with subtle movements. The palette offers numerous shades with a matt finish.

The surface must be degreased, clean, and free of any impurities, such as dust, wax, grease, silicone, soap, paint, and anything else that could cause the paint to detach.

Remove any old paint if not well adhered and fill in any gaps, if necessary. Apply PRIMART 800 primer on the surface to be finished with a wool roller, brush, or spray gun.

Then apply the first coat of SETAVEL with the PV 43 stainless steel trowel, with strokes in all directions. Once dry, after about 3-4 hours at 20°C, apply the second coat of SETAVEL with irregular strokes with a leopard spot pattern. After covering an area of about 1 m², fill in the gaps with short crossed overlapping strokes.

The works must be carried out in accordance with the application instructions, including the material, the application, and the temporary works necessary for the process.

Cost per m²: €_____
